

Siemens Digital Industries

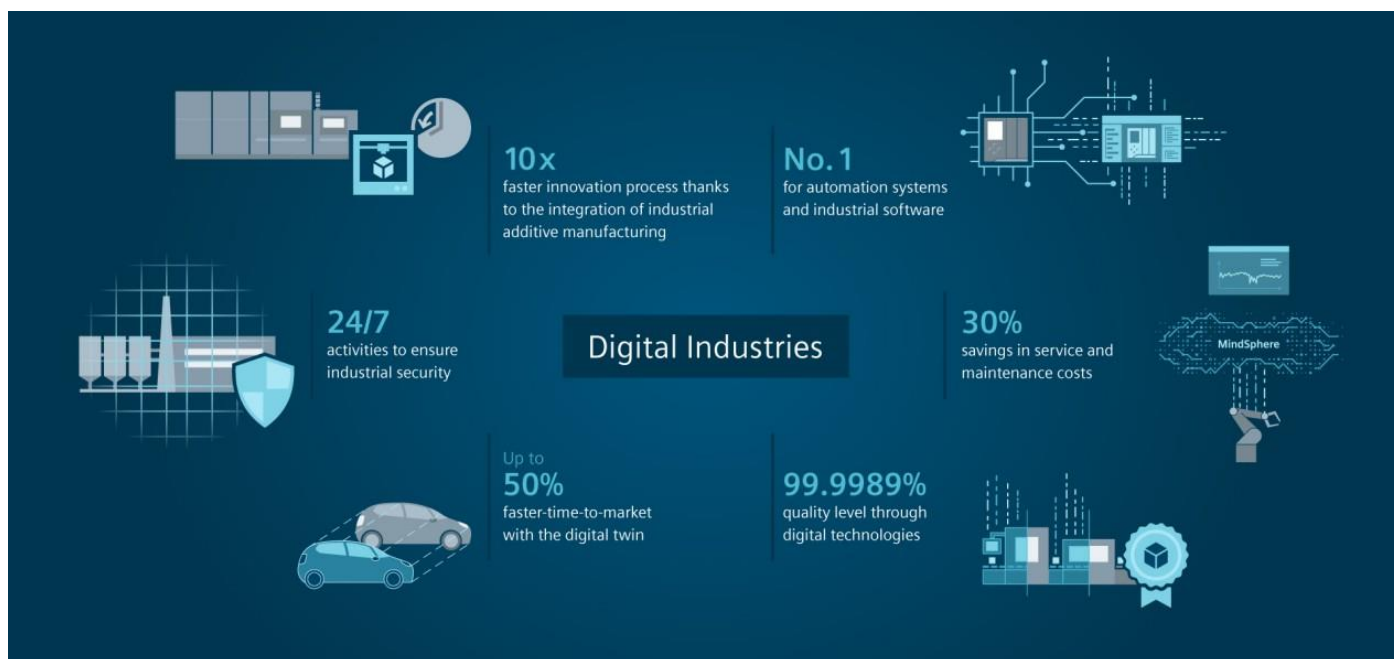

We create sustainable industrial innovation for a world we want to live in, today and tomorrow.

Siemens Digital Industries is an innovation and technology leader in industrial automation and digitalization. Advances being made in these areas – combined with the move toward increasingly flexible manufacturing processes – are creating new opportunities and choices for industrial companies across the globe.

Our Digital Industries business helps its customers unlock their full potential: as a partner providing cutting-edge technologies for the automation and digitalization of discrete and process industries.

The Digital Enterprise portfolio is at the core of our offerings. It provides companies of all sizes with the right products, along with consistent solutions and services for integrating and digitalizing the entire value chain.

As an innovation leader, we think ahead to the next level of the digital transformation and of integrated cutting-edge technologies – such as, cyber security, artificial intelligence, edge computing, industrial 5G, autonomous handling systems, blockchain and additive manufacturing.

Siemens Digital Industries – Key Facts

During your eight-week summer placement, you will rotate around the key aspects of our business focusing on the different disciplines of Sales & Marketing, Service & Support, Project Management & Engineering Practice and Emerging Digital Technologies. You will not only gain an appreciation for how industry applies theoretical concepts learned at university, but you will also gain experience in a variety of different digital technologies. You will have the opportunity to learn new skills, build on existing knowledge and understand your strengths. The E3 Scholarship is a feed-in programme into our Graduate Development Programme which is made up of four six-month-long rotations around the business – building further on the experiences gained during your E3 Scholarship.

"The news that Manchester is the new headquarters for Siemens UK is a great vote of confidence in Greater Manchester....Our city-region led the first industrial revolution, and this is yet another step forward as we look to lead the fourth."

Andy Burnham, Mayor of Greater Manchester

Your E3 Scholarship and future Graduate Development Programme will be based at our Siemens UK headquarters in Manchester. Known throughout the world as the birthplace of the industrial revolution, Manchester has a proud history in science, politics, music, arts and sport. And today the city combines this heritage with a progressive vision to be a city that delivers surprise and delight in equal measures.

Youthful, diverse, energetic and bursting with character; Manchester is one of the most exciting places to live in the UK right now where everybody and anybody is very warmly welcomed.
